

## TEN NEGROES ARE KILLED IN TEXAS RACE RIOTS

Austin, Texas, July 30.—Following the receipt of a advice by Adj. Gen. Newton that 10 negroes and two white men are already killed in a race riot 10 miles from Palestine, four state rangers left here today for Palestine on the urgent request of the district attorney there.

Details of the affair are not known here. The trouble is said to be augmented by an uprising of negroes, scores of whom are said to be purchasing arms today.

Gen. Newton is now considering dispatching a company of militia to the scene.

**Houston Hears Report.**

Houston, Texas, July 30.—Reports from Palestine, Texas, today say 15 negroes were killed and one white man badly wounded in a race riot near Slocum, Anderson county late yesterday.

**General Race War Feared.**

Fort Worth, Texas, July 30.—Scenes resembling open warfare are progressing this afternoon between Elkhart and Slocum, where, following a race riot early today, caused by trouble between a white man and a negro over a debt, a pitched battle is on between bands of whites and negroes, according to a long distance phone message.

Palestine is in a state of wildest excitement and the whole countryside is aroused and an attempt to exterminate the negroes of that section is feared.

## MURDER CAUSE OF SUICIDE OF GIRL

Sweetheart of Man Killed at Socorro Tries to End Her Life, But Fails.

## MAN ARRESTED AT SAN MARCIAL

Socorro, N. M., July 30.—Following the killing of young Emil Katzenstein Thursday night, in the presence of his sweetheart, that young woman, Miss Amanda Montgomery, attempted to commit suicide yesterday by taking sugar of lead. She tried to get morphine from Hilton's drug store here and was refused, it is declared. Doctors were called and treatment was successful, so that recovery is now assured. She stated that she did not want to recover and was sorry her attempt was unsuccessful.

**An Arrest.**

Sam Johnson, charged with aiding and abetting in the killing of Emil Katzenstein, was arrested at San Marcial last night at 7 o'clock by deputy sheriff Romero as he walked into the saloon owned by Harvey Richards. He had been noticed a few miles out at a ranch and other neighboring places and his arrest was delayed in an effort to ascertain if his companion, Frank Schmidt, alias Conway, would join him. Sheriff Sanchez and a party, after hard riding, contributed to the arrest, having forced Johnson to the wall. The arrest of the other man is expected shortly.

**Carefully Guarded.**

Johnson was brought to Socorro from San Marcial by deputy Romero, who was joined at San Antonio by sheriff Sanchez and his party, who had continued in their search for Schmidt. Johnson is now in the county jail here. There was some fear of mob violence at Socorro, but this was quite unwarranted and the march from the train to the jail was quite ordinary, but all precautions.

(Continued on Page Four.)

## OPEN WARFARE BETWEEN THE TWO RACES

Whites Armed and Shooting Every Negro in Sight; Negroes Shoot From Ambush

## MILITIA APPEALED FOR BY COOL HEADS

Palestine, Texas, July 30.—McGregor reports received here by telephone from that section between Elkhart and Slocum today state that fifteen negroes and two whites were killed in a race riot which became general following trouble between a white man and a negro, growing out of an attempt of a white man to collect a debt he said the negro owed him. Great excitement prevailed in that section and the exact facts are difficult to obtain.

Armed squads of white men are said to be patrolling the roads and firing is heard.

In return the negroes are adopting the guerrilla methods of warfare, roaming the countryside bushes in small bands, with arms ready to fight any white man encountered.

Appeals have been sent to Austin and messages received state that rangers are now on the way here.

Cooler heads among the leading citizens here urge that a company of state militia be sent to avoid more serious trouble. It is believed that this will be done tonight. Unless sooner counsel prevails, there is little doubt here that many will be killed.

At 1 o'clock this afternoon between 200 and 300 men and youths started for the scene, heavily armed.

**CAPT. FOWLER LEADS POSSE.**

Practically all of the able-bodied men in this vicinity have gone in automobiles to the scene of the trouble. There were about 45 automobiles and men, all armed. Captain Reese Fowler, who is here, is leading the posse.

## S. P. ATTORNEY WANTS TO GO TO SENATE

E. S. Ives Opens Campaign For Democrats at Tucson. Is For Publicity.

## WOULD PUBLISH CAMPAIGN MONEYS

Tucson, Ariz., July 30.—The Pima county Democrats opened the campaign for delegates to the constitutional convention last night with E. S. Ives, counsel for the Southern Pacific, candidate for senator, assailing the tariff. The only reference the speaker made to the provisions of the constitution was for a provision by which publicity of campaign expenses must be given a week before holding an election.

The Glia county Democrats declare for the initiative and referendum, the recall and a direct primary as the principles to be embodied in the constitution.

**MANY BOOMS START FOR POLITICIANS**

Among Them Is One for Hudspeth, of El Paso, for Lieutenant Governor.

Austin, Texas, July 30.—The prospect of a hot summer in Austin is not pleasing to the legislators. Many are leaving today for coast resorts to cool off Sunday.

**Legislative "Booms."**

The special session of the legislature is developing a number of little "booms" which may grow and develop into healthy ambitions at the state election two years hence.

The most virile of them all seems the one started by the friends of state senator Claude V. Hudspeth of El Paso, who is being urged as the most available candidate for lieutenant governor two years hence.

It has been suggested that the bestowal of this office would be a worthy reward for Hudspeth as a result of his activity in getting the insurance law repealed and at the same time a well deserved compliment to the far west section of Texas, which he represents.

The most attractive plum which will be shaken down in the near future is that of railroad commissioner, which will have to be filled by appointment when O. B. Colquitt becomes governor. Mr. Colquitt has already served notice that he will not resign until he qualifies for governor. This will give him an opportunity of appointing his own successor.

Charles Hogan, former land commissioner, and R. W. Finley, former state controller, are among the names mentioned as possibilities.

**Submissionists Lead.**

That the submissionists will have two-thirds majority and to spare in the next Texas legislature is assured by the additional returns from Saturday's primaries.

Three rabid prohibitionists replace anti in the senate, Lattimore being elected in the Fort Worth district, McNeals in the Dallas district, and Collins in the Beaumont district. State senator Harper, elected as the anti-prohibitionist candidate for the court of criminal appeals, has also been replaced by a submissionist. This gives the submissionists four senators when only one was needed.

In view of the certainty that the next legislature will order a prohibition election, the indications are that the present legislature will provide for a constitutional convention. This would have the desired effect and might act as a bar against the forthcoming legislature doing anything drastic in the way of regulatory prohibition.

Although all of the state officers seem to be anti-prohibitionists, even the defeat of H. Bascom Thomas, the expelled senator, now being conceded, the lawmaking body will be very decidedly pro, so much so that any bill they desire may be passed over the head of the governor.

Thus it would seem that the victory was in fact one for the prohibitionists and not one for the anti, as has been announced, for it leaves the pros with ability to dictate what shall and what shall not be done.

## SPAIN BREAKS WITH VATICAN

## SALOONS PAY HEAVY TOLLS TO OPERATE

Forty Million a Year Go for the Sole Privilege of Peddling Booze.

## THIS IS ONLY IN BIG CITIES

Washington, D. C., July 30.—More than \$40,000,000 in the larger cities of the United States goes to pay liquor license fees and then some.

The extent to which drinking men help to pay the expenses of the government in cities is indicated by the census report covering licenses for the year 1908 in cities of 20,000 or more. These figures show an aggregate of \$42,000,000 paid for licenses, a gain of \$3,000,000 over the previous year. The increase is due to the large fees exacted in most of the large cities. The licenses of drinking places numbered 67,131, a decrease in three years of about 4000. This is due largely to the fact that a number of cities went "dry."

The states claiming the largest number of saloons to the total population were Texas, Wisconsin and New York, notwithstanding the large area of prohibition territory in Texas, showing an unusually large number of saloons to the population in the "wet" counties.

## Washington Woman Who Is Some Horseback Rider

Washington, D. C., July 28.—Mrs. Herbert Wadsworth, a Washington society leader and noted horsewoman, has just completed a remarkable journey of 312.3 miles on horseback in 15 hours and seven minutes. It is in all probability a world's record. Mrs. Wadsworth (who is seen above astride one of her favorite jumpers) used 20 relays of horses in making her record-breaking journey and was accompanied by many friends in their automobiles.

## RELIGIOUS WAR MAY RESULT

Premier Takes up Defi of Pretender and Says Spain Fears Not the Carlists.

## AMBASSADOR TO POPE WITHDRAWN

Catholics of Spain Expect Downfall of Ministry and Victory for Church.

Madrid, Spain, July 30.—Excitement throughout Spain is intense over the conflict with the vatican, which came to a climax yesterday with the decision of premier Canalejas to recall the Spanish ambassador to the vatican.

Both the government and clerical parties have accepted the challenge to battle and the situation, complicated by the intrusion of Don Jaime, the exiled Carlist pretender to the throne, may easily develop into an acute feature. Already the government is taking precautionary measures and prohibiting demonstrations from which a disorder might result.

The clerical party seems to have set its aim not upon minor concessions but upon the downfall of Canalejas and his cabinet and the cancellation of the entire program of reform. The withdrawal of the imperial decree permitting non-Catholic organizations to display their insignia of a house of worship, which furnishes the ostensible cause of the conflict, assumes secondary importance.

Premier Canalejas has fixed his eye upon the modernization of Spain and the complete elimination of the clerical element as a factor in the government of the kingdom, and, confident of the support of the cortes, which was elected in May on this issue, he is determined to carry through his battle for a revision of the concordat of 1851. He wants the registration and regulation of religious orders, government control of public education and a recognition of absolute freedom of conscience.

The Roman Catholic press of Spain makes no effort to conceal its joy over the decision of premier Canalejas to recall the marquis de Ojeda, Spanish ambassador to the vatican. The rupture with the vatican and the prospective fight with clericalism, they predict, will result in the downfall of the premier.

Premier Canalejas, in the following statement to the press today, boldly taking up the challenge of Don Jaime, the Carlist pretender.

"We do not fear the threat of civil war. The king and Spanish democracy support us."

**Vatican Ambassador Recalled.**

At the conclusion of a conference last evening between king Alfonso and premier Canalejas it was announced that marquis Emilio de Ojeda, Spanish ambassador to the vatican, had been recalled.

The order to marquis de Ojeda to leave his post signifies that the rupture which senior Canalejas designated as inevitable is now an accomplished fact.

Marquis de Ojeda himself, in addition to pleading illness, has been insisting on his return on the ground that the position of the government at Rome was no longer tenable, and that he considered a rupture between the vatican and the government imminent.

**Government Is Firm.**

Premier Canalejas, referring to the vatican's last note, which declared that unless the decree of June 11 permitting non-Catholic societies to display the insignia of public worship was withdrawn, negotiations looking to the revision of the concordat would be discontinued.

(Continued on Page Four.)

## CRIPPEN CAUGHT IF ABOARD THE SHIP

Father Point, Que., July 30.—Chief Inspector Dew of Scotland Yard and chief McCarthy of the Quebec police, today perfected plans for the arrest of Dr. Hawley Crippen and his companion, Miss Leneve, should they be on board the steamer Montrose, as is firmly believed.

The Montrose is plowing her way slowly through the eastern end of the St. Lawrence river with the suspects, the inspector believes, ignorant that they are under surveillance. The steamer is expected to reach here about six o'clock tomorrow morning. When the pilot boat piers out from Father Point to place a river pilot on the Montrose, it will carry Inspector Dew and Canadian officials, who will make arrests if Crippen and Miss Leneve.

Inspector Dew arrived Friday on the steamer Laurentie from London, and is waiting here to unlock the secret which the steamer Montrose will bring to Father Point on Sunday.

Dew is the English police officer who made an examination of Dr. Hawley H. Crippen's home in London after the disappearance of the doctors' actress wife, Belle Elmore. He made an appointment to meet Crippen later, but before the date arrived, the cellar of the Crippen house unearthed the mutilated remains of a woman and Dr. Crippen was a fugitive.

Inspector Dew probably is the only man in America qualified to say with certainty whether the two suspects who sailed on the Canadian Pacific liner Montrose from Antwerp on July 29 under the name of John Robinson and John Robinson, Jr., are Dr. Crippen and his typist, Ethel Claire Leneve.

Chief McCarthy of the Quebec police, who met Dew here today, says he is confident that the suspicions of the Montrose's skipper will prove correct.

## WENDLING, CHILD MURDERER, CAUGHT

San Francisco, Cal., July 30.—Joseph Wendling, former janitor of St. John's parochial school, at Louisville, Ky., charged with the murder of 8-year-old Alma Kellner, was arrested in this city today. He admitted his identity to the police.

Wendling was found hiding under a sink in a Third street lodging house. He denied that he was the man wanted but the mark of a bullet wound on his hand, received in the French army, as well as a ship tattooed on his body, were discovered.

Then Wendling broke down and admitted his identity. Wendling is charged with the murder of Alma Kellner, the 8-year-old niece of a wealthy brewer in Louisville. A reward of \$5000 was offered for his capture.

In his talk with the district attorney and the police, Wendling denied any connection with the murder.

## REPUBLICANS PUT OUT A TICKET

Lew Gasser Named for Sheriff and J. E. Rhein for District Clerk.

## RING METHODS ARE DENOUNCED

\*\*\*\*\*

**REPUBLICAN TICKET.**

Representative, Edward W. Earl.

District clerk, J. E. Rhein.

Sheriff, Lew Gasser.

Constable, (precinct 1), R. F. Mitchell.

Commissioner (precinct 1), J. J. Ormsbee.

Commissioner (precinct 3), C. C. X. McKinney.

Delegates to the state and district convention, A. R. Anderson and S. Lapowski; alternates, J. A. Smith and A. L. Sharpe.

\*\*\*\*\*

This ticket was selected at the Republican county convention, in the 41st district court room Saturday morning. County chairman U. S. Goen presided at the convention and J. J. Ormsbee was the secretary. It was a business meeting of business men. No out and dried speeches were made nor resolutions read. The men who attended the convention as delegates from each of the precincts were business men in earnest about placing a ticket in the field to oppose the Democratic "ring" machine.

**The Committees.**

Opening with the calling of the temporary roll, U. S. Goen was selected as temporary chairman and J. J. Ormsbee temporary secretary. The appointment of the committees on credentials, permanent organization, resolutions and nominations were then announced by the chairman. These committees were composed of the following:

Credentials, H. B. Stevens, C. C. Klefer; resolutions, H. D. Slater, A. H. Anderson, J. S. Capron; permanent organization, I. G. Gual, W. A. Cannon, A. L. Sharpe; nominations, C. B. Stevens, J. E. Rhein, Col. Lewis.

**Only Partial Ticket.**

In view of the certainty that the next legislature will order a prohibition election, the indications are that the present legislature will provide for a constitutional convention. This would have the desired effect and might act as a bar against the forthcoming legislature doing anything drastic in the way of regulatory prohibition.

Although all of the state officers seem to be anti-prohibitionists, even the defeat of H. Bascom Thomas, the expelled senator, now being conceded, the lawmaking body will be very decidedly pro, so much so that any bill they desire may be passed over the head of the governor.

Thus it would seem that the victory was in fact one for the prohibitionists and not one for the anti, as has been announced, for it leaves the pros with ability to dictate what shall and what shall not be done.

## WORKMEN WEAKENED STREET CAR BRIDGE

Mayor of Juarez Places the Blame for the Accident in Which Car Fell Into River—Appoints Commission of Engineers to Make an Investigation—The Injured Are Doing Well.

Probing into the cause of the deathless Santa Fe bridge accident of Friday has begun.

A commission of three Mexican engineers has been appointed by Judge Miranda, of the Juarez district court.

Although no report has been made, it is understood on good authority that the cause has been learned, at least logically indicated. It is based on a technical point of bridge engineering.

Simply, a bridge, constructed as are all the local structures, is like a chain. Although each span is to an extent supported by its own beams, the whole fabric is keyed by the system of braces which rise above the road level. While the workmen improving the Santa Fe street bridge did not touch the span affected, it is said that they removed a beam which rests crosswise, the key of a V between the two spans. This, experts say, would warrant the collapse of either span.

This theory is carried out by the belief of jefe politico Francisco Portillo of Juarez, he himself an engineer of long experience. Mr. Portillo visited the scene of the accident many times, and his inspection has resulted in the theory that the key beam had been removed.

"I think that a new free bridge should be built," said Mr. Portillo. "The two federal governments should see to it. I am sure that the Mexican government will do its half share. There should be separate ways for vehicles, pedestrians and street cars. As for the accident, the bridge will not be opened until we are satisfied that it is safe. Of course, all that can be done now is to repair the bridge."

**The Injured.**

No developments have occurred as to the injured. All but three cases have been discharged from Providence hospital. O. H. Scott, the carpenter thrown from the bridge by a beam, is suffering from the injury to his back and can only move in great pain. His ankle also was slightly injured.

T. A. Leonard, the motorman, is not seriously injured, from present indications. His legs were only bruised and skinned. The exact nature of the injury to his abdomen is not known, since the hurt is internal.

Blas de la Lanza, the El Paso business man, is still confined to his bed with injuries about the left knee, and bruised face and breast. He has complained of much pain.

**Woman Likes Hospital.**

"I will not leave," declared Maria Basurto a patient at Hotel Dieu, when offered a carriage to her home in Juarez. The woman received a wrenched arm in the fall, but otherwise was uninjured. "I live alone, and work for a living," she explained, "and if I go home I can not work with my arm and I will starve. I am poor." Absolute refusal of the woman to leave the hospital was not overruled.

As the women patients at Hotel Dieu were being questioned Friday, a strange thing occurred. The Basurto woman and Elvira Williams were confined in the same room. "I live at No. 2, Ramon Ortiz, Juarez," said the woman with the wrenched arm in answer to a question. "Why, I live at No. 9," said the Williams woman. Passengers in the same car, injured in the same fall, the two women did not know each other as neighbors. Following the lead of Maria Basurto, the Williams woman also refused to leave the hospital, claiming disability.

**Injured Girl in Juarez.**

Those removed to their homes in Juarez are recovering rapidly with the exception of Miss Isabel Juarez, at first thought to be uninjured. She is confined in her home at 8 Calle Mina suffering from a sprained hip, according to Dr. B. Castillo. In attendance, Miss Maria Stockmeyer, who fainted after the accident, is suffering from great nervous shock. She was badly bruised about the face.

**Taking Testimony.**

Investigation in the Mexican federal court at Juarez has begun. Some testimony has been taken.

(Continued on Page Four.)

## COLORADO DAMAGED BY CLOUDBURSTS

Denver, Colo., July 30.—Hundreds of eastern tourists, camping in the mountain canyons around Denver, Colorado Springs, Boulder and other places had narrow escapes yesterday from torrents of water that followed cloudbursts in the hills.

Mountain passes were flooded almost without warning and so many washouts occurred that railroad traffic on the Denver & Rio Grande, Santa Fe and Colorado & Southern roads was tied up for hours.

Torrential downpours are reported all the way from Gallup, in northwest New Mexico, well into Wyoming. Three persons were drowned at Gallup by a cloudburst.

Pike's Peak avenue, one of the show streets of Colorado Springs, was turned into a river for a time.

Thousands of dollars damage was done in Buffalo park by a cloudburst, which deluged the entire district.

In Denver, Cherry creek became bank full in a few minutes as a result of a cloudburst at Sullivan.

Twenty Italian families at Globeville were driven from their homes by a flood which reached a depth of 10 feet for several blocks, women and children being rescued by rafts.

At Pueblo, the Fountain river rose 10 feet and the Arkansas river seven feet, but no serious damage was done.
